

CERTIFICATION BODY ACCREDITATION PROGRAM (CBAP)

Scope of Accreditation

La présente portée d'accréditation existe également en français et est publiée séparément.

Accredited Legal Entity: **FPInnovations**

Contact Name: Adime Kofi Bonsi

LOCATION A

Address: 570 Boulevard Saint-Jean
Pointe-Claire, Québec
H9R 3J9

Telephone: 514 782-4696

Website: web.fpinnovations.ca

Email: adime.bonsi@fpinnovations.ca

To ensure compliance with the *Official Languages Act*, the Standards Council of Canada (SCC) translated proprietary content from English to French when it was not available in French. In case of discrepancies between the English and French versions, the original version prevails.

SCC File Number:	10084
Accreditation Standard:	ISO/IEC 17065:2012 – Conformity assessment — Requirements for bodies certifying products, processes and services
Additional Accreditation Requirement:	SCC Requirements and Guidance – Product, Process, and Service Certification Body Accreditation Program, v5, 2021-09-21 IAF MD 4:2025 – IAF Mandatory Document for the Use of Information and Communication Technology (ICT) for Auditing/Assessment Purposes Related Bulletins
Initial Accreditation:	2020-09-29
Most Recent Reaccreditation:	2025-04-17
Accreditation Valid to:	2028-09-29

Additional Fixed Office Locations:

to the legal entity location identified at the top of this listing. There are no additional locations included in this scope of accreditation:

Product, Process, and Services Certification Scheme

Protected Mark:

Electronic Logging Devices Scheme

Subject Areas of Accreditation:

Additional accreditation standards	Section 79 of the Commercial Vehicle Drivers Hours of Service Regulations (the Regulations)
Certification standard:	Technical Standard for Electronic Logging Devices ELD Technical Requirements Test Specifications
Locations:	A

Additional Regulatory Requirements:

Title	Purpose
Transport Canada Electronic Logging Devices (Transport Canada)	Performance

Product Certification Scheme:

ISO/IEC 17067, Conformity assessment - Fundamentals of product certification and guidelines for product certification schemes, **scheme type 4** most closely resembles the product certification scheme operated by this organization. The surveillance part of this scheme allows for the choice between periodically taking samples of the product from the point of production, or from the market, or from both, and subjecting them to determination activities to check that items produced subsequent to the initial attestation fulfil the specified requirements. The surveillance includes periodic assessment of the production process. This scheme can both indicate the impact of the distribution channel on conformity and provide a pre-market mechanism to identify and resolve serious nonconformities. Significant duplication of effort may take place for those products whose conformity is not affected during the distribution process.

Note: The Transport Canada ELD certification scheme in this program does not include periodic assessment of the production process.

This document forms part of the Certificate of Accreditation issued by the Standards Council of Canada (SCC) to FPIInnovations. The original version is available in the Directory of Accredited Product, Process and Service Certification Bodies on the SCC website at scc-ccn.ca.
