

## CERTIFICATION BODY ACCREDITATION PROGRAM (CBAP)

### Scope of Accreditation

*La présente portée d'accréditation existe également en français et est publiée séparément.*

**Accredited Legal Entity:** International Testing Laboratory Inc.

Contact Name: Aman Jathaul

#### LOCATION A

Address: Unit 105-12031 Horseshoe Way  
Richmond, British Columbia  
V7A 4V4

Telephone: 604 238-5060

Website: [www.intertestlab.com](http://www.intertestlab.com)

Email: [aman.jathaul@intertestlab.com](mailto:aman.jathaul@intertestlab.com)

To ensure compliance with the *Official Languages Act*, the Standards Council of Canada (SCC) translated proprietary content from English to French when it was not available in French. In case of discrepancies between the English and French versions, the original version prevails.

<b>SCC File Number:</b>	10086
<b>Accreditation Standard:</b>	ISO/IEC 17065:2012 – Conformity assessment — Requirements for bodies certifying products, processes and services
<b>Additional Accreditation Requirement:</b>	SCC Requirements and Guidance – Product, Process, and Service Certification Body Accreditation Program, v5, 2021-09-21  IAF MD 4:2025 – IAF Mandatory Document for the Use of Information and Communication Technology (ICT) for Auditing/Assessment Purposes  Related Bulletins
<b>Initial Accreditation:</b>	2021-04-11
<b>Most Recent Reaccreditation:</b>	2025-04-20
<b>Accreditation Valid to:</b>	2029-04-11

### Additional Fixed Office Locations:

Refer to the legal entity location identified at the top of this listing. There are no additional locations included in this scope of accreditation.

### Product, Process, and Services Certification Scheme

#### Protected Mark:

ISO/IEC 17067, Conformity assessment - Fundamentals of product certification and guidelines for product certification schemes, ***scheme type 1b*** most closely resembles the product certification scheme operated by this organization. This scheme type involves the certification of a whole batch of products, following selection and determination as specified in the scheme. The proportion to be tested, which can include testing of all the units in the batch (100% testing), would be based, for example, on the homogeneity of the items in the batch and the application of a sampling plan, where appropriate. If the outcome of the determination, review and decision is positive, all items in the batch may be described as certified and may have a mark of conformity affixed, if that is included in the scheme.

ISO/IEC 17067, Conformity assessment - Fundamentals of product certification and guidelines for product certification schemes, ***scheme type 3*** most closely resembles the product certification scheme operated by this organization. The surveillance part of this scheme involves periodically taking samples of the product from the point of production and subjecting them to determination activities to check that items produced subsequent to the initial attestation fulfil the specified requirements. The surveillance includes periodic assessment of the production process. This scheme does not provide any indication of the impact the distribution channel plays on conformity. When serious nonconformities are found, the opportunity may exist to resolve them before widespread market distribution occurs.

ISO/IEC 17067, Conformity assessment - Fundamentals of product certification and guidelines for product certification schemes, **scheme type 4** most closely resembles the product certification scheme operated by this organization. The surveillance part of this scheme allows for the choice between periodically taking samples of the product from the point of production, or from the market, or from both, and subjecting them to determination activities to check that items produced subsequent to the initial attestation fulfil the specified requirements. The surveillance includes periodic assessment of the production process. This scheme can both indicate the impact of the distribution channel on conformity and provide a pre-market mechanism to identify and resolve serious nonconformities. Significant duplication of effort may take place for those products whose conformity is not affected during the distribution process.

ISO/IEC 17067, Conformity assessment - Fundamentals of product certification and guidelines for product certification schemes, **scheme type 5** most closely resembles the product certification scheme operated by this organization. The surveillance part of this scheme allows for the choice between periodically taking samples of the product either from the point of production, or from the market, or from both, and subjecting them to determination activities to check that items produced subsequent to the initial attestation fulfil the specified requirements. The surveillance includes periodic assessment of the production process, or audit of the management system, or both. The extent to which the four surveillance activities are conducted may be varied for a given situation, as defined in the scheme. If the surveillance includes audit of the management system, an initial audit of the management system will be needed.

### Scope of Accreditation:

The scope of accreditation for the above-mentioned legal entity limits the use of the certification mark shown, to products that meet standards classified by the following international classification coding:

ICS Code	Title	Purpose
03.120.20	Product and company certification. Conformity assessment	Electrical Safety
11.040.01	Medical equipment in general	Electrical Safety
11.040.50	Radiographic equipment	Electrical Safety
11.040.55	Diagnostic equipment	Electrical Safety
13.110	Safety of machinery	Electrical Safety
13.120	Domestic safety	Electrical Safety
13.220.40	Ignitability and burning behaviour of materials and products	Electrical Safety
13.260	Protection against electric shock. Live working Including tools for working with voltages	Electrical Safety
17.220.20	Measurement of electrical and magnetic quantities	Electrical Safety
19.020	Test conditions and procedures in general	Energy Efficiency * Limited to testing method for measuring energy consumption and determining efficiencies of gas-fired and fuel oil-fired water heaters
19.080	Electrical and electronic testing	Electrical Safety
21.180	Housings, enclosures, other machine parts	Electrical Safety

ICS Code	Title	Purpose
23.040	Pipeline components and pipelines	Performance * Limited to plumbing waste fittings
23.040.45	Plastics fittings	Performance * Limited to plastic nonpressure pipe compendium
23.080	Pumps	Electrical Safety
23.120	Ventilators. Fans. Air-conditioners	Electrical Safety
25.080	Machine tools	Electrical Safety
25.140.20	Electric tools	Electrical Safety
27.060.10	Liquid and solid fuel burners	Performance and Energy Efficiency * Limited to testing method for measuring energy consumption and determining efficiencies of gas-fired and fuel oil-fired water heaters, oil-burning equipment: General Requirements, oil burning stoves and water heaters, oil-fired warm-air heating appliances for mobile housing and recreational vehicles
27.060.20	Gas fuel burners	Performance * Limited to vented decorative gas appliances
27.200	Refrigerating technology Air-conditioners, Refrigerants, Household refrigerating appliances, Commercial refrigerating appliances	Electrical Safety
29.020	Electrical engineering in general	Electrical Safety
29.035.20	Plastics and rubber insulating materials	Electrical Safety
29.060	Electrical wires and cables	Electrical Safety
29.080.01	Electrical insulation in general	Electrical Safety
29.100	Components for electrical equipment	Electrical Safety
29.120.10	Conduits for electrical purposes	Electrical Safety
29.120.30	Plugs, socket-outlets, couplers	Electrical Safety
29.120.99	Other electrical accessories	Electrical Safety
29.130.01	Switchgear and controlgear in general	Electrical Safety
29.140	Lamps and related equipment	Electrical Safety
29.140.10	Lamp caps and holders	Electrical Safety
29.140.40	Luminaires	Electrical Safety
29.140.30	Fluorescent lamps. Discharge lamps	Electrical Safety
29.140.99	Other standards related to lamps	Electrical Safety
29.160.01	Rotating machinery in general	Electrical Safety
29.160.20	Generators	Electrical Safety

ICS Code	Title	Purpose
29.160.30	Motors	Electrical Safety
29.180	Transformers. Reactors	Electrical Safety
29.200	Rectifiers. Converters. Stabilized power supply	Electrical Safety
29.220	Galvanic cells and batteries	Electrical Safety
29.240.30	Control equipment for electric power systems	Electrical Safety * with limitation excluding microprocessor-based devices requiring both hardware and software to assess for safety hazards where software is relied upon to protect against hazard
29.260.01	Electrical equipment for working in special conditions in general	Electrical Safety
29.260.10	Electrical installations for outdoor use	Electrical Safety
29.260.20	Electrical apparatus for explosive atmospheres	Electrical Safety
31.180	Printed circuits and boards	Electrical Safety
33.060.01	Radiocommunications in general	Electrical Safety
33.160	Audio, video and audiovisual engineering	Electrical Safety
33.160.01	Audio, video and audiovisual systems in general	Electrical Safety
35.020	Information technology (IT) in general	Electrical Safety
35.260	Office machines	Electrical Safety
37.040.10	Photographic equipment. Projectors	Electrical Safety
65.060.70	Horticultural equipment	Electrical Safety
71.040.10	Chemical laboratories. Laboratory equipment	Electrical Safety
91.040.30	Residential buildings	Electrical Safety
91.140.50	Electricity supply systems	Electrical Safety
91.140.60	Water supply systems	Performance * Limited to stainless steel plumbing fixtures, plumbing fittings and plumbing supply fittings
91.140.65	Water heating equipment	Electrical Safety
91.140.70	Sanitary installations	Performance * Limited to enamelled cast iron, enamelled steel plumbing fixtures, ceramic plumbing fixtures, plastic plumbing fixtures and plumbing fittings
91.140.90	Lifts. Escalators	Electrical Safety
91.160.01	Lighting in general	Electrical Safety
91.160.10	Interior lighting	Electrical Safety
91.160.20	Exterior building lighting	Electrical Safety
97.020	Home economics in general	Electrical Safety
97.030	Domestic electrical appliances in general	Electrical Safety

ICS Code	Title	Purpose
97.040.20	Cooking ranges, working tables, ovens and similar appliances	Performance * Limited to gas food service equipment
97.040.30	Domestic refrigerating appliances	Electrical Safety
97.040.40	Dishwashers	Electrical Safety
97.060	Laundry appliances	Electrical Safety
97.080	Cleaning appliances	Electrical Safety
97.100	Domestic, commercial and industrial heating appliances	Electrical Safety
97.100.01	Heating appliances in general	Electrical Safety
97.100.10	Electric heaters	Electrical Safety
97.100.20	Gas heaters	Performance * Limited to outdoor decorative gas appliances and vented gas fireplace heaters
97.100.40	Liquid fuel heaters	Performance and Energy Efficiency * Limited to testing method for measuring energy consumption and determining efficiencies of gas-fired and fuel oil-fired water heaters, oil-burning equipment: General Requirements, oil burning stoves and water heaters, oil-fired warm-air heating appliances for mobile housing and recreational vehicles
97.100.99	Heaters using other sources of energy	Performance and Energy Efficiency * Limited to testing method for measuring energy consumption and determining efficiencies of gas-fired and fuel oil-fired water heaters
97.120	Automatic controls for household use	Electrical Safety
97.130.20	Commercial refrigerating appliances	Electrical Safety
97.170	Body care equipment	Electrical Safety
97.180	Miscellaneous domestic and commercial equipment	Electrical Safety
97.200.10	Theatre, stage and studio equipment	Electrical Safety
97.200.50	Toys	Electrical Safety
97.220.01	Sports equipment and facilities in general	Electrical Safety
97.220.10	Sports facilities	Electrical Safety

ICS Code	Title	Purpose
97.220.30	Indoor sports equipment	Electrical Safety

This document forms part of the Certificate of Accreditation issued by the Standards Council of Canada (SCC) to International Testing Laboratory Inc. The original version is available in the Directory of Accredited Product, Process and Service Certification Bodies on the SCC website at [scc-ccn.ca](http://scc-ccn.ca).
